### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: claims 1-8 are allowed over the prior art of record because the prior art of record, considered in combination or individually, fails to suggest or fairly teach an optical disk read/write apparatus including a combination of: a laser power detector, a suspending controller, an optical pickup controller; and a resuming controller relatively operated as particularly recited in claim 1, or a writing method including a combination of all functional steps as particularly recited in claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **CITED REFERENCES**

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references relate to an optical apparatus having a power control device for controlling the power level of a write power with respect to a predetermined power level and/or detected tilt signal.
